Observing the millimeter Universe with the NIKA2 camera

Tuesday 04 June 2019

SZ and X-rays (13:30-19:00)

time	title	presenter
13:30	X-ray, SZ and dark matter in galaxy clusters	ETTORI, Stefano
14:00	The X-COP project: Galaxy cluster reconstruction with joint X-ray and SZ data	ECKERT, Dominique
14:30	Spectral imaging and pressure profiles of the X-COP galaxy clusters with the Sunyaev-Zel'dovich effect	BALDI, Anna Silvia
15:00	Review of SZ science with NIKA	MACIAS-PEREZ, Juan Francisco
15:30	Break	
16:00	Evolution of cluster profiles with XMM and Chandra at $z > 0.5$ and status of the NIKA2 LP X-ray follow-up	BARTALUCCI, Iacopo
16:30	Exploiting the Planck legacy: properties of SZ-selected galaxy clusters at high- z and high-mass	ROSSETTI, Mariachiara
17:00	Biases in the estimation of galaxy clusters dynamical mass	FERRAGAMO, Antonio
17:30	Physics of Galaxy Cluster Outskirts	NAGAI, Daisuke
