24 May 2017

Journee Theorie CPTGA

Random geometry and critical phenomena: from percolation to random interface

Polygone Scientifique, Amphitheatre LPSC
53 rue des Martyrs, 38026 Grenoble Cedex

Wednesday 24 May

09:00

Random geometry and critical phenomena: from percolation to random interface

Session | **Location:** Polygone Scientifique, Amphitheatre LPSC, 53 rue des Martyrs, 38026 Grenoble Cedex |
Conveners: Eric Bertin, Vincent Beffara

09:00–09:50

Dynamical percolation on critical Erdős-Renyi random graphs

Speaker

Raphaël Rossignol

10:40

09:50–10:40

The critical threshold for Bargmann-Fock percolation

Speaker

Alejandro Rivera

11:10

Random geometry and critical phenomena: from percolation to random interface

Session | **Location:** Polygone Scientifique, Amphitheatre LPSC, 53 rue des Martyrs, 38026 Grenoble Cedex |
Conveners: Eric Bertin, Vincent Beffara

11:10–12:00

From directed polymer to interface growth

Speaker

Vivien Lecomte

12:00
