Systematics and sensivity studies: Systematics and sensitivity studies - FRANCE - 74 310 LES HOUCHES (14:00 - 16:10)

-Présidents de session: Philipp Schmidt-Wellenburg

time	[id] title	presenter
14:00	[27] Systematic effects studies at the Systematic and Operational Studies apparatus (SOS@PULSTAR)	SWANK, Christopher
14:30	[38] Studies of nEDM Systematics from Collective Rotational Motion of Neutrons	VANBERGEN, Sean
14:50	[28] Classical Derivation of Berry's Phase for Spin- $\frac{1}{2}$ particle	TEANDER, Cole
15:10	[29] Magic field option to cancel the mercury-induced false neutron EDM	BOUILLAUD, Thomas
15:30	[30] Systematic effect studies for dressed spins	TAT, Raymond
15:50	[31] Improving the statistical sensitivity of the neutron electric dipole moment experiment at TRIUMF	SIDHU, Steve
