

# Observing the Universe at millimetre wavelengths

## mercredi 28 juin 2023

### Wednesday A - Amphitheatre (09:00 - 10:30)

-Présidents de session: Gustavo yepes

time	[id] title	presenter
09:00	[100] Baryon Pasting Project	NAGAI, Daisuke
09:30	[80] Towards accurate millimeter-wave sky maps from gravity-only simulations	KÉRUZORÉ, Florian
09:55	[75] The high-resolution 300 clusters	CUI, Weiguang

### Wednesday A - Amphitheatre (11:00 - 12:00)

-Présidents de session: Michael McDonald

time	[id] title	presenter
11:00	[9] The Cluster XMM-Heritage project CHEX-MATE: current results and future prospects	ETTORI, Stefano
11:30	[72] X-ray absorption and molecular content of the interstellar medium toward CHEX-MATE galaxy clusters	BOURDIN, Herve
