

Observing the Universe at millimetre wavelengths

vendredi 30 juin 2023

Friday P - Amphitheatre (13:30 - 14:30)

-Présidents de session: Lindsey Bleem

time	[id] title	presenter
13:30	[18] Probing the Evolution of the Intracluster Medium with Joint X-ray+SZ Surveys	MCDONALD, Michael
14:00	[20] First massive galaxy clusters emerging from the cosmic web at $z \sim 2$	ANDREON, Stefano

Friday P (14:55 - 16:05)

-Présidents de session: Laurence Perotto

time	[id] title	presenter
14:55	[84] The South Pole Telescope Strong Lensing Cluster Sample	BLEEM, Lindsey
15:15	[81] Prospects for Kinematic Sunyaev-Zeldovich Measurements from South Pole Telescope data.	RAGHUNATHAN, Srinivasan
15:40	[91] Fluctuations in Galaxy Clusters at millimeter wavelengths	ROMERO, Charles
