

Journées théorie

jeudi 24 mai 2012

Systemes integrables - Amphithéâtre LPSC (14:00 - 15:30)

-Présidents de session: Eric Ragoucy

time	[id] title	presenter
14:00	[17] An introduction to integrable systems	MAILLET, Jean-Michel
15:00	[20] Dynamical reflection algebras: examples from Calogero-Moser model	AVAN, Jean

Systemes integrables - Amphithéâtre LPSC (16:00 - 17:30)

-Présidents de session: Eric Ragoucy

time	[id] title	presenter
16:00	[18] Integrability in Super-Yang-Mills theories	DRUMMOND, James
16:30	[19] Positive current cross-correlations in a highly transparent normal-superconducting beam splitter	MELIN, Régis
17:00	[21] Exact solution for the stirring of a one-dimensional interacting Bose gas on a ring trap	SCHENKE, Christoph
